

Support Stringers

Manufactured within the UK, allowing us to offer total flexibility whilst maintaining the highest possible quality standard and ensures fast reaction and a reliable service.

1. Box Section Stringer
2. Clip on Stringer
3. Bolt on Stringer with Screw Holes

Stringer Grade	Metal Thickness	Grid Size	For Voids
Heavy / Extra Heavy	1.5mm / 2mm	600mm	500mm & over

Stringers

Stringers are used where additional lateral stability is required or where floor heights exceed 500mm. The stringers are attached to the pedestals either via a clip in slot arrangement or screw fixed. Stringers will improve lateral stability and rigidity but will not effect the load bearing performance.

2mm heavy duty stringer, U channel mild steel construction, galvanised to BS 1706:1990 Fe/Zn 5c2c hook in location with screw down facility.

1.5mm medium duty stringer, U channel mild steel pre galvanised with hook in location with screw down facility

Box stringer and bespoke sectional steels made to customers requirements.
