

BEH600PBT Heavy Grade Porcelain Panel

TO PSA MOB PF2 PS/SPU Heavy Grade

The panel consists of a high grade, FSC® certified, 38mm high density particle board core in a sandwich construction with steel top sheet and bottom tray. It is then covered with a Nile Series Porcelain tile in Anthracite or other customer approved tile. This then has a half depth 2mm ABS edge band to the top of the ceramic tile applied creating a fully encapsulated 600mm² panel to be laid with complete electrical continuity and has a high resistance to damage.

Product	Panel Grade	Point Load (25mm x 25mm)	Load Over (300mm x 300mm)	Uniform Distributed Load	Panel Thickness (Nominal)	System Weight (Typical)
BEH600PBT	Heavy	4.5 kN	N/A	12.0 kN/m ²	54mm	52kg/m ²

Certification

The panel is fully tested by an independent UKAS accredited laboratory to the PSA MOB PF2 PS/SPU March 1992 Heavy Grade specification and is certified as being fully compliant. All of the Permaflor PSA panels have a 3 times working load safety factor, Class "O" spread of flame resistance and a 25 year warranty.

1/2 Depth 2mm ABS Edging

Galvanised Steel Top sheet and Bottom Tray

Finish

All of the Permaflor edge banded panels can have a wide range of factory bonded finishes that include wood, ceramic tile, carpet, high pressure laminate and vinyl. All of the edge banded factory bonded panels can be perforated for air flow. Whatever your requirement, Permaflor will have the flooring solution to suit you.

Manufacture

All panels are manufactured in our facility in the UK, which allows us to offer total flexibility whilst maintaining the highest possible quality standard and ensures fast reaction and a reliable service. Materials used are sourced from high quality suppliers and use renewable, sustainable sources and suppliers wherever possible. We can also offer a bespoke service and specialise in replicating and reproducing existing raised floors.
